

HVL 272

Introduction to Sociology + Lecture 1

Course Contents

1. Village
2. Caste
3. Family

We will be progressing slowly from village to caste onto family and understand that everything is interconnected.

Earlier people thought rural & urban but later people realized that they can coexist. New concepts of RURAL emerged.

Rural - Rurban - Urban

Metropolitan cities like Delhi, Mumbai also had rural livelihood like Munisika village.

- But what makes them a village?

1. Infrastructure
2. Clothing
3. Background / Origin

- Early sociologists had much clarification regarding the rural/urban scenario.

- Field work is a key feature of sociologists.

Sociologists / Anthropologists	Journalists
--------------------------------	-------------

- | | |
|---|---|
| <ul style="list-style-type: none"> - lot of ground work, talking to people, understanding and feeling the situation and studying the aftermath | <ul style="list-style-type: none"> - Instantaneous at the moment scenario. Short about crisp |
|---|---|

Time: longer & not motivated by time. Sociologists have a long, sustained enquiry	- Current, contains stories of today. Rush and urgency
--	---

Eg: 2002 Earthquake

Eg: Train Accident

- Gandhi & Ambedkar opposing view on Villages

Gandhi believed that villages

represented nostalgia, roots, culture, simplicity and handicrafts.

B.R. Ambedkar on the contrary believed that villages represented poverty, discrimination and believed in urban spaces having a better culture.

Development of Sociology in India

- Auguste Comte is the father of Sociology

Early 19th Century were filled with the ideas of liberty and equality

- Ideas of Individualism vs Society emerged
- Ideas of Citizen emerged from French Revolution

- Republic (~~was~~ elected head of state) ideas emerged and monarchys were falling down.

- Colonialism and Industrial Revolution had a close connection

- Colonies were also a source of raw materials as well as market for finished goods

- Dutch colonies → Tamil Nadu coast.
